

OSA - 3549-66

26 August 1966
WBS K 53-125

Dear Hazel:

Subject: Disposition of Scrap Material

Reference: Headquarters Message 2078 dated 22 July 1965

We have received scrap disposition for certain residual material under our various contracts. It is our normal practice to credit proceeds from such material to a burden account rather than directly to the applicable contract. This is done as normally scrap from all programs is comingled in order to accumulate a sufficient quantity to warrant bids for purchase.

This procedure was approved for Contract FL-CT-4001 by the referenced message. It is requested that it also be approved for Contracts KD-3540, FL-CT-4004 and FL-TM-4003.

Very truly yours,

Bob
